## Still going strong...

Free newspapers have come and gone but the Barnsley Independent has maintained its proud standing as the single most effective way of targeting the midweek audience.

With a distribution figure of 66,546, it drops through more letterboxes than any other free newspaper serving Barnsley – and successfully bridges the gap between one Chronicle and the next.

It is also one of the few free newspapers that can also be read online from cover to cover.

• Unbeatable penetration

• Online presence

• One of the leading free newspapers
